“ *Carol's beloved cat, Peaches, was my seriously shy foster cat. I'll never forget when Carol drove her fire engine red Prius to my house, and said she was willing and able to adopt a very shy, traumatized little calico kitty named Peaches. They had a happy, happy life together and I so enjoyed our occasional check-ins and updates. Carol was a huge-hearted, patient, kind woman and I'm honored to have been able to know her.*

“ *Carol lead a full adventuresome life! Carol enjoyed her grandchildren and shared her skills in the kitchen with both Laura and Craig. Carol always had a special pet to care for and share their company. Kathy was fortunate to have a Mom for many years and to be close by with her young children. Her friends will miss her.*
