“ *Hallie Jane Mehler was an incredibly gifted and inspiring teacher. Her dedication and profound knowledge of her subject was instrumental in my choice of career as a medical technologist and medical microbiologist. Forty years later I can say I had a wonderful, exciting career and am so happy that I was able to tell her that she started that ball rolling all those years ago.*

“ Miss Mehler was an inspirational teacher for my Saline High School years. Her patience and understanding of the inquisitive minds of her students was always appreciated and will be sorely missed. She inspired me to major in Biology in college and go to Dental School. She was one of the fondest memories I have of my high school years.

*Blessings and prayers to all of her family.*

“ *Miss Haley Mehler was the best Biology teacher I've ever had; she knew her subject well, she made learning fun, & she cared about me. I knew her from Macon Methodist Church as an active member who supported the Lord's work. She inspired me to be a good teacher, & a good member of the community. May The Lord bless all who loved her & comfort us in her passing.*

“ *The fact that I am a retired high school biology teacher says it all. Clearly the direction of my life was greatly influenced by Miss Mehler. She was simply the best in the classroom and I always tried to be like her in my classroom as well. Forty-five years ago (when I was in the 9th grade) we laughed about how close together our gravestones are in the Macon Cemetery and how we will have tons of time after we are both gone to discuss biology. God speed, Miss Mehler, and thanks for making me a biologist.*

*Ms. Mehler was truly a remarkable teacher and friend. She taught me passion for biology and hard work. I will forever be grateful for her influence in my life. I have many many fond memories, but the best must be of her sweet little laugh early in the morning. And while wandering around the Curtis Mansion grounds teaching us tree identification. God bless.*

*Hallie Jane was a wonderful cousin and friend. I have a lifetime of memories of time spent with HJ, Aunt Ida, Uncle Herm, Aunt Min, Mary Jane/ Chuck and the rest of our family. Such fun we always had when we got together. ...dinners, card parties, shopping trips and reunions. She will be greatly missed.*

*I remember the summer trips to the lake with Hallie Jane, Dave, Barb, my mother and brother. Seems like it would rain or turn cold for that time of year but we would still find a way to have a good time. I also learned how to play euchre at the card parties that were at the Mehler homestead on New Years Eve. Aunt Ida always made her chicken sandwiches. My heart goes out to my mother and Judy as they have lost a member of what could be called the Three Amigo's as they grew up together. Hugs, Paula*

*Ms. Mehler was my most influential teacher...tough, yet fair. After over 25 years as a professional research scientist spanning academia, government and industry, I still give credit to her for encouraging me to pursue a career in biological science. We have talked amongst my classmates of how many nurses, scientist, and medical personnel have been inspired by her. An incredibly legacy.*

*Ms. Mehler, was a mentor and an inspiration. I loved being her student assistant my senior year. My biology major was a result of her impact on my education.*
