“ *Kim was an inspiration both personally and professionally. He educated thousands of anesthesia students and served as a role model to so many CRNAs. I remember his dry sense of humor. He always called me by my last name, and I knew that was a good sign;-)*

“ *My condolences are with Kim's family. I fondly remember the wonderfully droll anesthesia wisdom Kim imparted over the years I knew him - from back in the '70's at the DMC, through the years he taught the regional anesthesia component at Oakland University William Beaumont's Program of Nurse Anesthesia in the '90's. He was an adept clinician and an extraordinary didactic instructor.*
