“ Shirley started out as a client of mine and quickly became one of the best friends I've had. We spent many hours together over the past 4 years. She was always full of stories and ideas and loved her children and pets so much. Miss Shirley is a once in a lifetime kind of woman. I'm so thankful for my time with her. She's missed so much already.

She truly thought of you as part of her family and we were told to plan our excursions around her scheduled time. We were lucky she had such a loving & caring friend and care giver.

“ Shirley was also a hairdresser and in the house here on Saline-Ann Arbor had a small shop. My mother insisted on perms. In those days, it was a huge machine that you were hooked up to and then changed to smaller rollers. But it still smelled awful even though Shirley tried to convince me it did not. She loved her family and animals and was a strong support for all of them. Prayers and condolences to Randy and Sherry, Laurie and Larry, Robbie, Roger and Tammy and Rodney and family. Remember your great times with her and her strong family beliefs. Jim and Cheryl Hoeft

“ *Great grandma used to always write me letters, Something I always looked forward to when the mail came. So lucky to have most of those still. We'd write about designing clothes and life and she'd tell me stories about when she was a little girl ❤️*

She loved telling (you) those stories. Just a few short weeks ago she told me a story. Probably her last high adventure was 'fighting off two' care takers to 'run out' into the fresh snow 'flopping' down on her back to make snow angels. And she said good they chased her down as she of course couldn't get up.

“ *The family would go deer-hunting every year, invariably Mom would get her deer while listening to a transistor radio with an ear-plug and reading a paperback book. It used to make me so mad because I thought you had to sit absolutely still and be so quiet - I guess there are different ways to do some things after all.*

I'll miss you Mom.
